

CHOCOLATINA

Exotic Genetix

Best known for its super delicious flavor, Chocolatina is the perfect bud for any indica lover who wants to kick back after a long and stressful day. The high starts fast and hard with a rush of heady effects, lifting the spirits with a creative happiness that fills you with an almost giddy unfocused euphoria.

A fun cross of Mint Chocolate Chip x Tina bred by Exotic Genetics. Bright greens and purple pop in the jar. Frosty trichomes can be seen through the buds, even down to the stems.

Sweet with a subtle hint of chocolate. Earthy, sweet. Immediate euphoric with a mild energetic kick, followed by mellow relaxation.

An ideal wake and bake strain, Chocolatina and a cup of coffee will start your day off right. Smoke your worries away and dive in!
