

PLATINUM GARLIC

(ABOVE PICS ARE FROM ACTUAL PHENO)

- Lineage: GMO x Platinum
- Indica Leaning Hybrid
- Flowering Time of 8-9 weeks.

Derived from a cross of GMO, loved for an impressive 30% THC level and amazing gassy aroma with Platinum, which shortens the flowering time and adds some flair when reinforces her ability to be mold resistant. A heavy hitter therefore not recommended for a daytime smoke.

- Genetics: GMO (Garlic Cookies) x Platinum
- Hybrid
- Indoor/Outdoor
- Flowering time: 60 - 75 days
- Tall stretch
- Yield: Med to heavy

(PIC BELONGS TO IN HOUSE GENETICS)
