

GORILLA BREATH

(PICS ARE OF OUR ACTUAL PHENO)

Gorilla Breath by Humboldt Seed Organization is an Indica-dominant feminized cannabis strain much sought after by experienced growers. If you buy Gorilla Breath, you will have the chance to enjoy one of the top-ten cannabis hybrid crosses in the USA.

Gorilla Breath seeds' parents are the famous GG4 and OGKB clone, so there's a lot to be happy about here. The resulting hybrid is a stunning marijuana plant that oozes quality and that yields buds wrapped in a delicious subtle OG/earthy aroma. A medium veg period is recommended indoors while outdoors the plant loves to be topped and LST technique being used. The production of resin is way above average.

The aroma of Gorilla Breath seeds reminds of earthy, gassy, sweet vanilla bean while the intense flavor is gassy with hints of pine, fuel, chocolate, and diesel. This cannabis strain, which produces a powerful, long-lasting, clear, cerebral effect is one of the strongest on our menu.

- **Genotype** 80% Indica / 20% Sativa
- **Cross** GG4 x OGKB
- Suitable for Indoors and outdoors
- **Indoor flowering** 65-70 days
- **Indoor yield** 450-600 g/m²
